

In-Office Savings Plan

\$125 New Patient First Visit!!!

First visit includes exam, cleaning, check-up bitewing x-rays, panorex.

Please note: If you have a lot of build-up on your teeth you may require more than the routine cleaning. You may need a debridement before a routine cleaning so we can properly diagnose your true dental needs. This would be an additional fee.

Benefits:

At this first visit we will diagnose all of your dental needs. We will draw up an individualized treatment plan to meet your specific needs. With this treatment plan you will receive all in-office treatment for 20% off and have 6 months to complete the treatment at these fees. This will include treatment in our office. Unfortunately, we cannot extend this offer to cover treatment we need to refer you to a specialist for.

Your second cleaning and exam visit will also be \$125!!!
